

Calcium Bentonite Clay Tips & Testimonials from Perry A~

Happy New Year. It's Perry A~ and I am back. Though we sold the Living Clay business in 2005, I have not retired from educating people to the plethora of uses of Calcium Bentonite Clay and answering their questions (512-773-0335 perrya@perrya.com) in an effort to understand this complicated natural substance. As I promised I will maintain the free clay information website www.BentoniteClayInfo.com. Since retiring from the webinars due to ongoing increasing expenses, I am picking up the slack by sending tips, articles, suggested protocols and new testimonials to share the magic of Bentonite Clay.

For a definitive guide to understanding and using clay I recommend my newest book *Calcium Bentonite Clay Nature's pathway to Healing – Balance, Detox, Stimulate, Alkalize*. You can order from www.TheClayBook.com or [Amazon](http://Amazon.com).

Today's testimonial comes with photos of the healing process of a Diabetic Heal Ulcer that could not be healed by Western Medicines. The pictures and story tell it all.

Diabetic Infected Heel Ulcer

After last round of antibiotics. Doctor's only solution was to amputate her foot. Now see what clay did.

Day 4. of applying clay. Top black layer of gangrene infection gone. Scaly feet. Notice bottom of foot skin thick and dry. Elephant like texture. The clay will slough off the dead tissue and skin and new

To the left: Improvement two weeks later. Swelling in ankle area down. Dried flakey skin.

45 more days. (Stopped going to her house because of a snake bite). I was not able to document the healing during this period..

These are pictures after she healed. Notice yellow spot, another ulcer began erupting and was in process of healing when I took these pictures 45 days from the day of my snake bite.

Notice new skin....new texture and skin on her sole and around ankle and sides. The clay ate the infection into a crater eating all the pus/ infection inward. Then it filled it out. Wish I could have seen it filling out. - Frankie W.
