

Calcium Bentonite Clay Tips & Testimonials from Perry A~

It's Perry A~ and I am back. Though we sold the Living Clay business in 2015, I have not retired from educating people to the plethora of uses of Calcium Bentonite Clay and answering their questions (512-773-0335 perrya@perrya.com) in an effort to understand this complicated natural substance. As I promised I will maintain the free clay information website www.BentoniteClayInfo.com. Since retiring from the webinars due to ongoing increasing expenses, I am picking up the slack by sending tips, articles, suggested protocols and new testimonials to share the magic of Bentonite Clay.

For a definitive guide to understanding and using clay I recommend my newest book *Calcium Bentonite Clay Nature's pathway to Healing – Balance, Detox, Stimulate, Alkalize*. You can order from www.TheClayBook.com or [Amazon](https://www.amazon.com).

Today's Tips & Testimonials is about treating a finger saved from amputation.

Finger Saved from Amputation

Clay saved my finger from amputation and me from sepsis due to the injury. I sent you a text about the severe injury which my HMO had treated so badly, it was severely infected and not healing. Any way you called and took me through the process of packing it and it healed from the inside out (it was 90 percent severed through the first joint pad almost through to the nail on the other side). The ER had steristripped (yeah hard to believe) it and it ruptured open and was turning black.

I cannot even see a scar!! - R. C.
